

STUDENT NAME _____ AGE _____ GRADE _____

PARENT NAME _____ EMAIL _____

Dear Parents,

In our effort to place your child appropriately in a section of Chemistry, we are asking that you complete this questionnaire. **Please note that this class is open to students in grades 10-12. Answer the following questions carefully, adding explanatory comments wherever needed, in order to provide a reasonably good overview of your child's preparation in math and science. There are no right or wrong answers to these questions, so please be at ease as you respond!*
Scan and email this completed form to [Ms. Becca Beaman](#) within three weeks of your child's enrollment in Chemistry at New Hope.

1. Please identify the instruction your child has received in math up until the present.
 - a. Level of study: Algebra 1, Geometry, More advanced (please specify)

 - b. Source of instruction: Parent, Tutor, Classroom (public or private school), Video instruction, Homeschool co-op, etc.

 - c. Educational materials used. (Specify most recent textbook name and/or publisher, or explain other basis of math curriculum.)

2. Please comment (or seek input from your child's most recent instructor) on your child's level of interest, aptitude, and degree of confidence, in math.

STUDENT NAME _____ AGE _____ GRADE _____

PARENT NAME _____ EMAIL _____

3. Please describe your child's education in science up to this point, including:
 - a. Middle school or high school courses already passed (Earth Science, Life Science, Physical Science, Biology, etc.)

 - b. Source of instruction: Parent, Tutor, Classroom (public or private school), Video instruction, Homeschool co-op, etc.
4.
 - a. Educational materials used – textbook publisher and/or title of other scientific courses or products used

5. Please comment (or seek input from an instructor) on your child's level of interest, aptitude, and degree of confidence, in scientific subjects. You may wish to differentiate between his/her response to one area of science versus another.

Thank you very much for your thoughtful answers, which should help us place your child in a class at New Hope. **Be sure also to send your child's completed Math Assessment Test for Chemistry within three weeks of registration for this class;** that test is available directly from the instructor (becca.beaman@newhopecourses.org).
